PROFESSIONAL SUMMARY

Full stack software developer with professional experience building and shipping web and mobile applications using React.js, React Native, Node.js, and TypeScript. Experience across the full delivery cycle: requirements, UI/UX design, implementation, testing, and deployment to the Apple App Store and Google Play Store. Comfortable working alongside QA, marketing, and product teams in Agile environments, and delivering features on schedule in fast-moving startup settings.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Kotlin, Python, PHP, HTML5, CSS3, SQL

Front-End: React.js, Next.js, Angular, React Native, NativeWind, Ionic, Jetpack Compose, Tailwind CSS, ShadCN UI, Responsive and Mobile-First Design

Back-End: Node.js, Express.js, Laravel, RESTful APIs, GraphQL, OpenAPI

Databases: PostgreSQL, MySQL, MariaDB, MongoDB, SQLite, Redis, Drizzle ORM, Studio 3T

Testing & QA: Vitest, Playwright, MSW, Storybook, Postman, Chrome DevTools

Auth & Integrations: Auth.js (NextAuth) v5, Lucia, Clerk, Better Auth, TanStack Query, Axios

DevOps & Tools: Git, GitHub, Bitbucket, Firebase, Vercel, Netlify, Android Studio, Xcode, Expo, CI/CD workflows

Design: Figma, Wireframing, Prototyping, User Research, UI/UX Design

PROFESSIONAL EXPERIENCE

Software Developer

February 2026 – July 2026

RazeTech — Bacolod City, Philippines

- Developed and maintained two internal products end to end: Wise Buddy, a React Native and Laravel budgeting app featuring receipt scanning via OCR, spending insights, budget limits, and split-bill sharing; and a Real Estate Management platform (Next.js, React Native, Laravel, PostgreSQL) handling properties, tenants, leases, documents, expenses, and analytics.
- Built responsive web and mobile interfaces using Tailwind CSS and NativeWind with reusable component libraries and a mobile-first approach, reducing duplicated UI code and shortening the build time for new screens.
- Integrated AI-assisted development tools into the workflow to accelerate debugging and code review, improving code quality and shortening feature delivery cycles.
- Collaborated with product stakeholders to translate business requirements into technical specifications and shipped features across both web and mobile codebases.

Junior Full Stack Web / Mobile Developer

May 2025 – February 2026

Almana Group of Companies (YouLink.Store, MediaBox) — Bacolod City, Philippines

- Developed and shipped YouLink.store Earn, a rewards feature within the company e-commerce platform, delivering new functionality across web and mobile from design through production release.
- Maintained and enhanced the YouLink.store e-commerce platform serving [X] users, resolving bugs and releasing new features on a continuous delivery cadence.
- Deployed mobile applications to the Apple App Store and Google Play Store, managing build configuration, store listings, and release requirements for both platforms.
- Partnered with the QA team through structured testing and feedback cycles to reduce defects reaching production and ensure stable releases.
- Designed UI/UX solutions in Figma and implemented them in code, improving interface usability and consistency across the platform.

- Worked cross-functionally with marketing and development teams to align technical output with business goals, and consistently delivered features within agreed project timelines.

Freelance Software Developer

January 2025 – July 2025

BioFlyt Agriventures — Bacolod City, Philippines

- Designed and developed a mobile application enabling hotels and restaurants to schedule and track organic waste pickups, delivering the product from requirements gathering to release as the sole developer.
- Built an internal software solution for employee attendance tracking and product input management, replacing manual record-keeping and improving data accuracy for daily operations.

IT Intern — Software Development

June 2024 – October 2024

Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) — Makati City, Philippines

- Developed EcoTagger, a React Native and Node.js/Express web and mobile application for tracking plastic waste and packaging, built in support of the GIZ 3RproMar marine litter reduction project.
- Produced UX design solutions including wireframes and prototypes that improved usability for field users collecting waste data.
- Coordinated with the project leader and international team members on deliverables, contributing to a collaborative development environment.

Graphic Artist

October 2024 – January 2025

JulzSportswear — Murcia, Negros Occidental, Philippines

- Designed jersey layouts for sublimation printing and supported daily shop operations, applying visual design principles that carry over into UI work.

EDUCATION

Bachelor of Science in Information Technology

2021 – 2025

La Consolacion College — Bacolod City, Philippines

- Awarded Best Thesis Design, 2025.

CERTIFICATIONS & ACHIEVEMENTS

IT Skills Enhancement and Emerging Technologies Program — Almana Group of Companies, 2026

[**Foundations of User Experience \(UX\) Design**](#) — Google via Coursera, 2026

Best Thesis Design — La Consolacion College – Bacolod, 2025

Responsive Web Design Certification — freeCodeCamp, 2023

Philippine Startup Challenge — Participant — DICT, 2023

DTI Moonshot TNK Pitching Competition — Participant — Department of Trade and Industry, 2023

Digital Career Expo — Participant — DICT Region VI, 2023
